ARE IN RABBIT HOLES

British Learn Why Their Heavy Fire Has Not Been Effective.

CRONJE'S FORCES ARE PROTECTED.

The Anniversary of Majuba Hill Will Probably Be Celebrated by the Boers in Their Lager at Paardeberg.

London, Feb. 26.—If the latest dispatches from Paardeberg throw any light on the situation, they show that General Cronje's forces have more protection from Field Marshal Lord Roberts' heavy fire than the first dispatches indicated.

A dispatch from Paardeberg published in the Daily Chronicle and dated Feb. 24, says: "A balloon has discovered the enemy well covered by a system of burrowing in the river bank, which resembles a rabbit-warren and affords shell-proof positions."

This perhaps, more than any other circumstance, explains why what is looked upon here as General Cronje's death struggle, is prolonged. Thus it will not be much of a surprise if the anniversary of Majuba hill, Feb. 27, pass without being marked by the surrender or annihilation of the gallant band so overwhelmingly hemmed in, though the closeness of the investment appears open to criticism. Small bodies of Boers apparently are able to make their escape, causing comparison here between the Boers' methods of investment, with their quickly dug, surrounding trenches and impassable barbed wire, and those of the British.

The military critics, though little better informed as to the commander-in-chief's motives than the public, are inclining to the view that though the main cause of the prolongation of the Paardeberg tragedy undoubtedly consists in Lord Roberts being unwilling to risk the great loss of life which an assault would entail, his delay is also prompted by the subsidiary motive of attracting to Paardeberg as many reinforcing and relieving Boer units as will come, feeling strong enough to treat them as General Joubert treated General Buller's attempts to relieve Ladysmith. In other words, Lord Roberts holds a position almost an analogous with that held so long by the Boers at Ladysmith.

As General Cronje is reported to have plenty of food, the plan of starving him out can scarcely avail, so Lord Roberts must either wait until his ammunition, which is said to be short, runs out, or those of General Cronje's force who are counselling surrender, prevail. So indefinite is the information that either of these alternatives may occur at any moment.

In the meanwhile, Lord Roberts' engineers are sapping steadily towards the Boer laager, and, according to a special from Paardeberg, dated Sunday, Feb. 25, the cordon is gradually drawing closer.

General Buller's march on Ladysmith is being marked by sharp fighting. A Pietermaritzburg dispatch says he is still heavily engaged in fighting. In Grobler's kloof General Buller seems to have discovered a hornet's nest. In Cape Colony the British arms are steadily advancing.

A dispatch from Kimberley says its inhabitants have planned to erect a statue to Cecil Rhodes, in recognition of his services during the siege.

American Criticism Withheld.

New York, Feb. 26.—Important reports in regard to the operations of the British army in South Africa have been received by the war department at Washington from Captain S. L. H. Slocum, Eighth cavalry, military attaché with the British forces. Criticism which Captain Slocum makes of the tactics and personnel of the British have caused the department to determine that it would be improper to make them public, and they have been filed away in the military information division for use by officers in their studies at the several military schools. It is known that Captain Slocum especially condemns the failure of the British to make proper reconnaissance before advancing. He was with General Buller on the Tugela, and says that in his first battle there, that officer attempted to cross by two drifts in plain view of the enemy, with absolutely no preliminary attempt to reconnoiter, and that apparently General Buller believed he had only a small force to encounter, and would have no difficulty in brushing it aside. He assigns the same mistake at Magersfontein and Stormberg.

War Balloon In Use.

Paardeberg, Feb. 26.—The war balloon is doing excellent service. It rose to a great height and discovered in the bed of the river four wagons which

contained ammunition. Those were exploded by the British shells an hour afterwards. The balloon observer also discovered a number of horses concealed near by, and these also received attention from the British shrapnel.

Buller's Casualties.

London, Feb. 26.—General Buller, in a dispatch from Colenso, dated Sunday, Feb. 25, reports that the British casualties Feb. 20 were 12 killed and 99 wounded, among the Somersets and Dorsets, and that Feb. 22 and 23 12 officers were wounded.

CRAWLED IN SNOW.

Half a Mile to Tell About His Home Being Burned.

New York, Feb. 26.—The handsome residence of Robert Johnson, a retired dry goods merchant of this city, on the Hudson at Mount St. Vincent, N. Y. was burned. The damage is \$100,000. Mr. Johnson, who was asleep on the top floor at the time, made his escape by means of a surveyor's chain, which he tied to a bedstead. In jumping from the top of a storm door to the ground he wrenched his back. He crawled over a half mile on his hands and knees in the snow to the house of a gardener, and after telling of the fire fell unconscious. There were many valuable pieces of statuary, oriental rugs and paintings in the building, which were destroyed. Johnson, who is 45 years of age, lived alone.

Swalley company, Findlay, \$25,000; Schoepflin Printing and Publishing company, Cleveland, amendment changing name to Clark-Schoepflin Printing company; Holmes Furnace and Stove company, Sabina, increase from \$100,000 to \$200,000; Agudas Achim Kranken and Unterstutzungs-Verein, Cleveland; Cleveland Golf Club company, Cleveland, increase from \$2,500 to \$10,000; Builders' and Traders' Exchange of Cincinnati, Cincinnati.

Against Seating Quay.

Washington, Feb. 26.—When the senate had concluded its routine business, Mr. Turley (Tenn.) called up the resolution to the effect that Hon. M. S. Quay was not entitled to a seat. Mr. Turley prepared the majority report, and spoke in opposition to the seating of Mr. Quay. He said: "If there ever was a case in which the governor of a state was, under the constitution, without power to fill the vacancy, it is this one."

Seems to Be a Wreck.

Portland, Me., Feb. 26.—The Allen line steamer Californian, which went on the rocks off Ram Island lodge Sunday morning, was found to have 25 feet of water in her hold, and as she appeared to be leaking at all points and as none of her compartments were free from water, it was considered unlikely that the vessel could be saved.

Death of an Editorial Writer.

Philadelphia, Feb. 26.—George Wooley Allen, 62, for more than 30 years one of the editors of the Evening Telegraph of this city, died at his home here. Mr. Allen had been in failing health for some time past and last week he fell on the snow-covered pavement in front of his residence, the shock resulting in death.

Decision Against Dewey.

Washington, Feb. 26.—The United States court of claims rendered a decision on the claim of Admiral Dewey for prize money on account of the destruction of the Spanish fleet in Manila harbor. The court decided against the admiral's contention that the enemy's force was superior to his and awarded him \$9,570.

Dabney Appointed.

Knoxville, Tenn., Feb. 26.—Dr. Charles W. Dabney, president of the University of Tennessee, has received notice of his appointment as a member of the committee of international awards at the Paris exposition. Dr. Dabney has not yet accepted, having the matter under advisement.

French Bark Floated.

Philadelphia, Feb. 26.—The French bark Quérille, which went ashore on a bar in the Delaware river off Marcus Hook during a heavy gale, was floated apparently uninjured. The Quérille arrived from Dieppe with a cargo of oil and was waiting to be docked when she went ashore.

Fire at Detroit.

Detroit, Feb. 26.—Fire, which broke out in the center of the Woodward avenue shopping district at noon, gutted the 4-story building occupied by Marr & Taylor, retail dry goods, and by George C. Darwin's ladies' clothing emporium. Total losses about \$100,000.

HAS TURNED TO DOUGH

Cake of the Gigantic Flour Trust Failed to Bake, as It Were.

RECEIVERS APPOINTED BY COURT.

Misarrangement of Plans Which Resulted in a Failure to Secure the Necessary Working Capital Caused the Collapse.

Milwaukee, Feb. 26.—The United State Milling company, generally known as the flour trust, went to pieces Saturday afternoon, but the fact did not become known for 48 hours, when Judge Jenkins, in proceedings ancillary to the United States court of New Jersey, appointed three receivers for the company, two of whom are now in charge of the property.

The receivers are Daniel Thomas of New York, Charles E. Kimball of Summit, N. J., and Albert C. Loring of Minneapolis. The collapse of the company was due, it is said, to inability to float its securities on the open market.

George William Ballou, the stockholder who instituted the suit in which the receivers were appointed, made the following statement concerning the causes leading to the failure of the company:

"In the organization of the company it had been hoped that sufficient means would be provided for the purchase of the property required by the company and to supply sufficient working capital to carry on its business by the sale of its first mortgage collateral gold bonds, but because of the tight money market and depression in industrial securities, the company was unable to carry out the plan and was obliged to resort to borrowing money on its collateral trust bonds and otherwise urged to secure a temporary loan by its issue of so-called trust bonds, and further by the failure of this plan by borrowing in open market.

"The money so borrowed constitutes the floating indebtedness, which amounts to \$1,095,508, of which \$144,365 is due and \$394,850 is on demand loans."

The United States milling company was formed with a capital stock of \$25,000,000 on April 27, 1889, having secured control of several flour milling properties in the northwest and east.

The proceedings will have to be instituted in every circuit where the company owns property. The bond fixed by the New Jersey court is \$100,000 in each case. Judge Jenkins requires them to give an additional bond of \$25,000 each. While the original suit is in New Jersey, the greatest litigation will probably be in Wisconsin, as the majority of the company's property is in this state.

Mr. Ballou is a resident of New Jersey, but his bill filed in the United States court in Milwaukee goes into great detail. Mr. Ballou says he has made a careful investigation of the affairs of the company, and is satisfied that it is wholly insolvent.

Not Much Cash.

The company, Mr. Ballou sets forth, will be unable to meet any of its obligations as they mature. Its cash in the bank is but \$1,000, and it has no bills or accounts receivable the proceeds of which would be sufficient to meet the matured and maturing obligations.

The quick assets of the other mills, Mr. Ballou sets forth, do not exceed \$550,000, and consist chiefly of flour, bags and stock on hand, of which but a small portion could be converted into cash without great sacrifice.

The capital of the company is divided into 250,000 shares, of the value of \$100 each. Mr. Ballou owns \$50,000 worth of the stock. On May 1, 1899, the company mortgaged all of its properties to the Central Trust company of New York to secure an issue of \$15,000,000 6 per cent gold bonds, of which \$6,004,000 have been floated. On Nov. 16, 1899, the company mortgaged \$750,000 of the gold bonds and 9,000 shares of the preferred stock of the Northwestern Consolidated Milling company to secure an issuance of \$3,000,000 trust bonds, of which \$1,077,000 have been placed on the market, the total amount of the bonds floated being \$7,081,000. On top of these the company has outstanding \$1,500,000 of its first mortgage bonds pledged as collateral, and \$1,496,000 deposited with the Central Trust company to be exchanged for an equal amount of the Hecker-Jones-Jewell company and \$391,000 pledged as further collateral.

In the order appointing the receivers they are directed to proceed with the operation of such of the mills as have not been shut down, and they are required to proceed to carry out contracts on hand. An injunction is is-

sued restraining all parties from interfering with the receivers or from bringing suit. All creditors must file their claims in the receivership proceedings.

A Reorganization Scheme.

Minneapolis, Feb. 26.—A. C. Loring, formerly vice president and general western manager of the United States milling company, and one of the receivers, said that the receivership was in furtherance of the reorganization plan.

MARCUS DALY

Testifies About the Part He Has Taken in the Clark Case.

Washington, Feb. 26.—Marcus Daly was called to the witness chair as soon as the committee on elections began the consideration of the Clark case. Mr. Daly stated he was 58 years of age and that his business was that of mining. He knew Mr. Clark and Mr. Whiteside, and had known Mr. Clark a long time. He first contributed to the campaign when it was organized to the extent of about \$4,500, later to the extent of \$2,500, also \$500 in Deer Lodge county and \$250 on various other occasions. He had never, he said, sought to compel miners employed by him to vote according to his sentiments. As to Whiteside, he said he had given him nothing for the purpose of defeating Mr. Clark.

"Did you ever during the session of the legislature give any money toward the defeat of Mr. Clark?" "No, I did not; not one dollar," Mr. Daly replied.

Mr. Daly was asked as to the \$30,000 which is on deposit with the committee, and is alleged to have been bribe money. He said he knew nothing about this money, and had nothing to do with advancing it, as had been intimated. He also specifically denied the statement of a former witness that Daly had told him every man who supported Clark would be denounced as a boodler and a bribe-taker. Mr. Daly denied that he had sought to influence members of the legislature or the judiciary of Montana in that connection.

"Are you one of the contributors toward this prosecution?"

"Yes," answered Mr. Daly. He went on to say that after Mr. Clark's nomination he (Clark) had charged that he was the subject of a "conspiracy," and as Mr. Clark courted an investigation, Mr. Daly said he concluded to permit the matter to be thoroughly investigated.

Attitude of Administration.

Washington, Feb. 26.—As there have been many rumors about the attitude of the administration in regard to the Hay-Pauncefote convention, it may be stated as the result of a careful inquiry that the president and the cabinet are unanimous in its support, that they all consider its provisions the best that could have been obtained and the best now obtainable; that consequently they all desire its early ratification; that there is no intention of withdrawing it and no belief that it can be amended to any great extent without destroying all hope of its ratification.

Four Men Killed.

Scranton, Pa., Feb. 26.—Four men were killed in the Mount Pleasant mine by the breaking of a mine cart. The killed are: William Gilbert, Thomas Williams, John Regan and Frank Woodward. The men were descending on the mine cart to the sixth vein. When it reached the fifth vein the cart, which was going down at a rapid rate, struck an adjustable shelf, which was left projecting, breaking the bottom of the cart and dropping the men to the pit 75 feet below.

Cutting the Price of Fish.

Cleveland, Feb. 26.—The fish trust, organized a year ago last August by the union of 65 of the fish dealing concerns of the country, is now engaged, it is reported, in a cutting of prices, which is looked upon in some quarters as an attempt to secure absolute control of the fish market. In certain localities it is stated an advance of about 40 per cent has been made, while in territory covered in part by independent companies prices have been cut to water-edge prices.

Murder and Suicide.

Brock, New Brunswick, Feb. 26.—Wilson Wakelin, a prominent farmer residing three miles north of this place, murdered his wife by cutting her throat with a razor. He then went to the cemetery, where his first wife was buried and, standing on her grave, cut two ugly gashes in his throat. Death in both cases was instantaneous. Mrs. Kakelin was popular, having been at one time president of the Woman's Christian Temperance Union of New Brunswick.

Savannah, Ga., Feb. 26.—President H. M. Comer of the Central railroad of Georgia died here. He has been ill for some time.

THE PORTO RICAN ACT

Will Be Modified and Passed, So Republican Leaders Claim.

PAYNE CHAFFED BY RICHARDSON.

The Democrats Consent to an Extension of Time But Take Occasion to Heap Coals on Majority Side.

Washington, Feb. 26.—The Republican leaders after an hour's consultation with Speaker Henderson over the Porto Rican tariff bill announced emphatically that the bill would be modified, and that as modified it would pass. The changes which the leaders have decided upon are a further reduction of the duties to be levied upon American goods imported into Porto Rico, and upon Porto Rican goods into the United States from 25 per cent of the American tariff, as provided in the bill, to 10 per cent. The bill is also to be made temporary in its character. It is only to continue in force until a general law for raising revenue for the island can be framed. Representative Towney of Minneapolis, the Republican whip, after canvassing the situation, said that only five Republican votes would be cast against the compromise measure.

Shortly after convening the house resumed the debate on the Porto Rican tariff bill. There were few members upon the floor, but the leaders on both sides were active. Mr. Payne (N. Y.), the floor leader, announced that no compromise had been made with the dissatisfied Republicans, and there would be a conference later. The leaders have decided to extend the general debate another day.

When Mr. Payne preferred the request for the extension of time, Mr. Richardson, the Democratic leader, said: "This is a remarkable request to come from the majority. We construe it to be a frank and candid confession that they have brought here a bad bill, and an admission in open house to the country that they have not votes enough to pass it."

The Democrats, he continued, were always magnanimous. They would not strike their foes when they were down, and they were not disposed to take advantage of the pitiable situation on the other side of the aisle. Still they felt that some terms should be imposed, and he demanded as conditions to an extension, a night session and permission to offer a substitute in the house on Wednesday, when the final vote was to be taken. With these "conditions," he remarked blandly the minority would grant the "entreaty" of the majority. Mr. Payne smilingly replied that he appreciated the "generosity" of the other side, and not to be outdone in magnanimity he would agree to the terms.

Mr. Bartlett then took the floor with a half hour's speech against the bill. He laid down as an elementary principle of international law that whenever a country, whether empire, monarchy or republic, acquired territory by conquest, by purchase or treaty, that territory became a part of such country and subject to her laws.

There was one consolation, he said, for those who believed this bill was unconstitutional. Whatever this congress might do, however they might trim down, shade or override the sections of the constitution, there was a court which was the greatest that ever sat upon a bench, and would, if guided by prior decisions of that grand tribunal, hold to the indestructible principle of the constitution, which were our only safety and hope for the perpetuation of the republic.

Lenham (Tex. in opposing the bill declared that the Porto Ricans were either Americans or aliens. There could be no such thing as separating and dividing the immunities and privileges of American citizenship. The inhabitants of the island, he insisted, were entitled to unrestricted free trade with the United States. If an imperial policy was set up it could but end in the downfall of the republic.

London, Feb. 26.—The Leader says: "Up till Saturday night Cronje seems to have held out. It is strange that he should have elected to have a citadel in a river bed with heavy rains due any day. All we have been able to do is to surround him with artillery, now nearer 70 than 50 guns. The militia are now arriving at the Cape, and they will be able to release the regulars on the lines of communications, who can be pushed to the aid of Roberts, Clements and Gatacre. Buller burrows forward, but the enemy around Ladysmith is not yet in a hurry to be gone. It is rumored that Buller and Roberts are waiting to strike the final blow simultaneously on Majuba."

WEATHER FORECAST FOR KENTUCKY—Cloudy and warmer; easterly winds. Wednesday rain or snow, with colder in western portions.

ANOTHER Spanish Captain who was in the great naval battle at Santiago bears testimony to the splendid work of Admiral Schley.

THE Republican Legislators evidently don't want Goebel's assassins apprehended. They have decided to break a quorum in the House from day to day, if possible, in order to defeat the bill appropriating money for the apprehension of the murderers. They succeeded in so doing Saturday, but the bill was advanced a step, being introduced and committed. The lobby is making a determined effort to influence Democrats against the bill. If Republicans think the amount is too large, they should try to have it reduced instead of fighting the reward altogether.

GOVERNOR GOEBEL.

Watterson Declares He Voted For the Election Law Under Protest.

MORGANTOWN, W. VA., February 24.—Henry Watterson, editor of the Louisville Courier-Journal, lectured at the West Virginia University last night.

He gave an interview to one of the afternoon daily papers, and among the statements it contained is that the late Wm. Goebel was not the author of the famous Kentucky election law, which bears his name; not only that, but Goebel stood shoulder to shoulder with him in trying to prevent the bill from becoming a law. He says Goebel voted for the bill against his own judgment and against his (Mr. Watterson's) protest.

Mr. Watterson justified Goebel's killing of Sanford and said he was one of the purest men in public life.

PURE home made hoarhound drops at Traxel's.

MR. WILLIAM SHEPARD and family have taken up their residence in Newport. They have the hearty good wishes of their many friends in their new home.

EDITOR MOORE and his printer, Jas. E. Hughes, of the Blue Grass Blade, indicted by the Federal grand jury at Louisville, last week, were arrested Monday. They are charged with circulating in the Blade obscene matter.

MISS SALLIE McLAUGHLIN, of Covington, and Mr. Harry Harris, a well known business man of Cincinnati, were married last Saturday at the home of the bride's father, Squire Wm. McLaughlin, of Covington, Rev. J. D. Walsh officiating. The bride is a niece of Mrs. Robert Picklin, of this city.

THE Weed, Louisville, says: "Mr. Peed, of Paris, who purchased the burley samples at the recent Maysville tobacco fair, has shipped the tobacco to the Paris Exposition, to compete for the \$2,000 prize for Kentucky. Mr. Peed says this tobacco is the finest burley ever grown in Kentucky, and he is confident of winning the prize on his exhibit."

THE First National Bank of Louisville has brought suit against the Mutual Benefit Life Insurance Company and the Fidelity Trust and Safety Vault Company, executor of Watson A. Sudduth, to recover \$5,000. Mr. Sudduth's life was insured in the Mutual Benefit for \$5,000. The First National alleges that he owed it over \$5,000 and as a part security transferred the policy.

Owed Goebel Money, but Spent His Time Villifying Him.

It is said that during the examination of Gov. Goebel's personal papers a few days ago several due bills for considerable amounts of money were found, all of them from a distinguished man who was one of those who took a conspicuous part in the campaign of villification and abuse of the late Governor. Yet Goebel did not once bring up the fact that this man for years had owed him for cash borrowed.

A Life and Death Fight.

MR. W. A. HINES, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store.

REPUBLICANS OUSTED.

Democratic Candidates Given Certificates of Election on Ground of Military Intimidation at Louisville.

FRANKFORT, KY., Feb. 26.—At 5 o'clock to-day the State Election Commissioners, sitting as a Board of Contest, rendered a decision ousting all of the Republican minor State officers of Kentucky, and certificates were at once granted to the Democratic contestants.

The vote of Martin, Johnson and Magoffin counties were thrown out on the alleged ground of thin ballots.

All of the Democratic candidates were here to receive their certificates in person.

The election board threw out the vote of the entire city of Louisville on the alleged ground of military intimidation. This elected the entire Democratic State ticket by upward of a 1,000.

Democratic candidates made demand for the offices, but were refused. When C. Breck Hill dropped in on Secretary of State Powers, Powers replied. "I guess I shall have to hold on."

The Democratic candidates will take their fight into the courts.

The Republican candidates will try to get the case into the United States Supreme Court.

STARTLING SURPRISES

Promised by Lawyer Campbell, Referring To the Mystery of Mr. Goebel's Assassination.

[Louisville Post.]

FRANKFORT, KY., Feb. 26.—A significant remark was made by T. C. Campbell, formerly of Cincinnati, but now of New York, leading counsel for the Goebelites, this morning. In speaking of the possibilities of more arrests or fresh developments in the murder case, he said:

"There will be some startling surprises very soon."

Campbell, accompanied by Justus Goebel, of Cincinnati, and Urey Woodson, who has been in New York, arrived this morning. The coming of Goebel and Campbell at this time is regarded as having a direct bearing upon the progress of the investigation into the tragedy.

Mr. Goebel's body is still in the vault at the cemetery. The date of the interment has not yet been fixed.

HON. CHAS. B. POYNTZ.

The Maysvillian Tipped as One of the Four Delegates at Large From Kentucky to the National Democratic Convention.

[Courier-Journal.]

The Democratic leaders are pleased with the late date fixed for the Democratic National convention. It gives them an opportunity to straighten out all the party affairs in the State in ample time to nominate their candidate for Governor in the same convention that selects the national delegates.

This will save not only expense, but also a great deal of trouble. The State has had such a surfeit of politics that the leaders want to simplify matters and avoid more confusion by holding only one State convention this year. It will probably be held about the middle of June, or two weeks before the delegates have to go to Kansas City.

Two of the four delegates from the State at large are certain to be Senator Blackburn and Mr. Charles B. Poyntz, the Election Commissioner who stood by Gov. Goebel in his contest, made a minority report for him and refused to sign Taylor's certificate. He will probably receive the vote of every delegate in the State convention.

FRANKFORT, KY., Feb. 26.—A Ninth Congressional district boom is being started for Charles B. Poyntz, of Maysville, for Governor. He is Chairman of the State Election Board. Poyntz has received many letters urging him to run.

MAYSVILLE TEAM LOST.

Kentuckians Scored Five Straight Victories in the Bowling Games at Covington Sunday.

[Enquirer.]

Frank King's Kentuckians easily defeated the Maysville (Ky.) bowling team in five well-played games on King's alleys in Covington Sunday afternoon. The visitors played in fair form, but were no match for the local team, which played in excellent form during the entire series, averaging 879 in the five games.

The usual courtesies were shown the Maysville bowlers, who were entertained in good style by the Covingtonians. Upon their arrival in the morning they were conducted to the Fairview Heights bowling alleys, where they practiced for the afternoon series, after which they were dined at a Covington hotel in fine style.

A few weeks ago the Kentuckians visited Maysville, at which time they took five out of six games. The Maysvilles were confident that revenge would be their lot, but Captain Kemphaus's team made it five straight, winning ten out of the eleven games bowled.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

PROF. BE-HAN-NES-SEY.

Something of a Distinguished Syrian Who Will Lecture at the Christian Church To-night.

Prof. Phares Be-han-nes-sey, the distinguished Syrian who lectures at the Christian Church to-night, was born at Damascus. He is the eldest son of an hereditary Ameer and would inherit the estates of his father, but at fourteen years of age he was permitted to come to America with an uncle for the first time and remained long enough to become interested in the schools and educational facilities of the United States.

On his return to his home he endeavored to enlist the sympathies of his father in his desire to do something for his own country in this line and insisted on being permitted to return to America to complete his own education. His father, although a rich man in Syria, owing to the difference in purchasing power of the money of two countries, was unwilling to spend the necessary amount, until by the aid of missionaries an agreement was entered upon by which Phares relinquished his titles to the estates, and after a year and a half's absence he returned to America. He had noticed the interest that all tourists take in oriental costumes. That suggested the idea of lecturing on the life and customs of the orientals, illustrating his lectures with living models wearing the costumes of the people of the East. His father furnished him with the necessary equipment, and since his return he devotes a part of each year to the lecture platform. He has lectured before many leading universities, in many of our larger cities and was one of the leading attractions at the N. Y. Chautauqua a season or two ago.

His lecture to-night will be illustrated by about forty people in oriental costumes. Admission 25 cents. Lecture begins at 8 o'clock.

Grotto of Diamonds.

As a rule, scenery in car-load lots is found only with spectacular productions. It is quite out of the ordinary to find a minstrel show with more than a first part setting. Such, however, is not the case with John W. Vogel and Arthur Deming's "Big" Minstrels which come to Washington Opera House Friday, March 2nd, for, from a scenic standpoint, the performance is as worthy the title of spectacle as any of the Hanlon, Gilmore or Yale productions. Instead of the usual array of plush draperies, etc., employed as first part settings, this organization boasts of the costliest, richest and most effective first acts ever carried by a traveling company. The scene has been appropriately named the Grotto of Diamonds, and when the calcium effects and electrical appliances are brought into play the effect is dazzling beyond description. The Broken scene carried for the specialty of the equilibristic marvel, Olvio, is also a heavy and artistic piece of stage paraphernalia.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

PITHY POLITICAL POINTS.

(By Robert Taylor.)

Assassination, thy name is Republicanism.

Lovers of gold are no longer lovers of liberty.

Republicans have the blood of Goebel on their hands.

The Republican party in Kentucky has put its indorsement to assassination.

Lovers of gold are per force lovers of English greed, avarice and oppression.

The Republicans knew what they were doing when they assassinated Goebel.

Republicanism and assassination may be synonymous terms in Kentucky hereafter.

The Democrats lost Goebel, but the Republicans lost honor and all that men esteem, by assassinating him.

Republicans rejoiced at heart at the assassination of Goebel to the very same extent that Democrats lamented.

It's un-American and un-republican to favor the English in their war against the heroic little South African republic.

All gold Democrats as well as all Republicans sympathize with England in her great diamond hunt in South Africa.

The Republicans knew where to strike to make the most effective work for their side, hence the shot that destroyed the Democratic leader.

Could Republicans have control in Kentucky so long as time endures it couldn't make amends to them for the assassination of Governor Goebel.

The Republicans generally look out for their own interest, whether it be in assassination, "stealing the Presidency,"—as the New York Sun was erstwhile pleased to call it,—or what not.

Although we may not be able to name the brute who shot Goebel to death, yet the whole country puts his assassination at the hands of the Kentucky Republican party, individually and collectively.

It shows a lamentable lack of consistency to say the least, to claim to be a lover of liberty and republican institutions, while sympathizing with the British in their war of murder, rapine, greed and conquest in South Africa.

The profit of a gold mine depends, not on the amount of rock crushed under the stamps but upon the amount of gold which can be extracted from the rock. In a similar way the value of the food which is eaten does not depend on the quantity which is taken into the stomach but upon the amount of nourishment extracted from it by the organs of nutrition and digestion. When these organs are diseased they fail to extract the nourishment in sufficient quantities to supply the needs of the several organs of the body, and these organs cannot work without nourishment. The result is heart "trouble," liver "trouble," and many another ailment. Dr. Pierce's Golden Medical Discovery, acting on every organ of the digestive and nutritive system, restores it to health and vigor. It cures diseases remote from the stomach through the stomach in which they originated. "Golden Medical Discovery" contains neither alcohol nor narcotics.

BIG STRING OF RACERS.

A. P. Gooding, Formerly of This County, Will Campaign This Year With a Stable of Seventeen Horses.

[Thoroughbred Record.]

The horses in training, belonging to A. P. Gooding, Jr., of Cynthiana, Ky., have been removed from the Harrison County farm, to the famous old training track at Abdallah Park. The string numbers seventeen head, three over two years old and fourteen of that age. Jas. W. Carter, at one time a good jockey, has charge of the racing string. For the past ten years, Carter has trained throughout the West a lot of horses with which it looked foolhardy to attempt to win races. Carter, however, was all out financially, and had to make the best of a bad bargain. By systematic nursing and babying a bunch of faint-hearted dogs, he was able to win races enough to keep him going. His energy, however, would not be denied. Care and attention to these meat hounds of recent years, together with the fact that Carter had shown through the performance of his charges—Eberlee, Atticus, Fayette, W. G. Morris, etc., that he knew his business, attracted the attention of Mr. Gooding to this trainer and secured him his engagement.

As a care taker and hard worker around the barn, Jimmy has few equals, and now that he has some material to work on in the shape of choicely bred two-year-olds, it looks like this conscientious trainer will, in winning races for his employer, reap that reward deserving of his labor and worth. About April 1, the entire string will go to the Newport race track to take part in the spring meeting. Below is a list of Mr. Gooding's horses:

Edith H., ch m, 4 by Hanover, dam Bayadere by King Alfonso.
Dr. C. S. Ayres, b c 3, by Kehama, dam Annie Irwin by Iroquois.
Tibbs, b c 3 by Kehama, dam Georgia M., by King William.
